

I started service with XM last summer and can't imagine not being without it! My husband and I were so happy with the variety of channels including everything from music to news that we purchased additional service for his vehicle and for our home. I enjoy the wide variety and I especially like the fact that I don't have to listen to commercials. I consider the small amount of money I pay well worth my XM service. I reject the NAB's petition 04-160 and consider it an invasion and a nuisance. I don't want NAB to ruin XM like they have ruined AM and FM. I will tell all my XM friends to respond in kind. Amie Gray
